Visitors

All visitors, including parents and siblings, are required to enter through the front door of the building and proceed immediately to the main office. Visitors should identify themselves and inform office personnel of their reason for being at school.

Visitors must sign in, identifying their name, the date and time of arrival, and the classroom or location they are visiting. Approved visitors must take a tag identifying themselves as guests and place the tag to their outer clothing in a clearly visible location. Visitors are required to proceed immediately to their location in a quiet manner. All visitors must return to the main office and sign out before leaving the school. Any person wishing to confer with a staff member should contact that staff member by telephone or email to make an appointment. Conferences with teachers are held, to the extent possible, outside school hours or during the teacher's conference/preparation period. Visitors are expected to abide by all school rules during their time on school property. A visitor who fails to conduct him or herself in a manner that is appropriate will be asked to leave and may be subject to criminal penalties for trespass and/or disruptive behavior. Equal Opportunity and Sex Equity

Equal educational and extracurricular opportunities are available to all students without regard to race, color, nationality, sex, sexual orientation, gender identity, ancestry, age, religious beliefs, physical or mental disability, status as homeless, or actual or potential marital or parental status, including pregnancy or any other legally protected category.

No student shall, based on sex or sexual orientation, be denied equal access to programs, activities, services, or benefits or be limited in the exercise of any right, privilege, advantage, or denied equal access to educational and extracurricular programs and activities.

Any student or parent/guardian with a sex equity or equal opportunity concern should contact the building principal.

Animals on School Property

In order to assure student health and safety, animals are not allowed on school property, except in the case of a service animal accompanying a student or other individual with a documented disability. This rule may be temporarily waived by the building principals in the case of an educational opportunity for students, provided that (a) the animal is appropriately housed, humanely cared for, and properly handled, and (b) students will not be exposed to a dangerous animal or an unhealthy environment.

School Volunteers

All school volunteers must complete the "Volunteer / Chaperone Application Form" and be approved by the school principal prior to assisting at the school. Forms are available in the school office. Some teachers utilize parent volunteers in the classroom. The individual teachers make this decision. Teachers who desire parent volunteers will notify parents. For school-wide volunteer opportunities, please contact the building principal.

Volunteers are required to check in and out at the main office and receive a visitor badge before going to their destination.

Invitations & Gifts

For grades PreK-5, party invitations or gifts for classmates must not be brought to school to be distributed, unless the entire class is invited. These items are of a personal nature and should be distributed outside of school.

Birthday Treats

For grades PreK-5, students may bring treats to school to celebrate their birthday. Please note, treats must be commercially prepared and not "homemade", with list of ingredients displayed so the school nurse can inform the teacher of potential allergens/other health concerns or impacts. Parents should not feel obligated to bring a treat; it is completely optional. In order to create the least amount of confusion, please send something that is easy to eat. Gum is not an appropriate treat. If you choose to send a treat, please contact the teacher beforehand in order to determine an appropriate time for the treat to be distributed and to avoid multiple treats on the same day.

Emergency School Closings

Should weather or some other unexpected circumstances may require the school to be closed or the students dismissed early, the information will be broadcast over television via: WREX -- channel 13-television station, WTVO – channel 17, and WIFR – channel 23. Also, the information will be posted on the district Facebook page and the district website. In addition, the district will use our school emergency calling system to make phone calls to parents making them aware of the circumstances.

Video & Audio Monitoring Systems

A video and/or audio monitoring system may be in use on school busses and a video monitoring system may be in use in public areas of the school building. These systems have been put in place to protect students, staff, visitors and school property. If a discipline problem is captured on audiotape or videotape, these recordings may be used as the basis for imposing student discipline. If criminal actions are recorded, a copy of the tape may be provided to law enforcement personnel.

Accommodating Individuals with Disabilities

Individuals with disabilities will be provided an opportunity to participate in all school-sponsored services, programs, or activities. Individuals with disabilities should notify the superintendent or building principal if they have a disability that will require special assistance or services and, if so, what services are required. This notification should occur as far in advance as possible of the school-sponsored function, program, or meeting.

School Board Policy 8:70, Accommodating Individuals with Disabilities**Medicaid Data Release – Special Education Students Only**

If your child receives special education services and is also Medicaid eligible, Winnebago CUSD #323 can seek partial reimbursement from Medicaid for health services documented in your child's Individualized Education Program (IEP). Medicaid reimbursement is a source of federal funds approved by Congress to help school districts maintain and improve diagnostic and therapeutic services for students.

The reimbursement process requires the school district to provide Medicaid with your child's name, birth date and Medicaid number. Federal law requires annual notification of our intent to pursue this reimbursement opportunity.

If your child receives special education services, is Medicaid eligible and you approve of the release of information to Medicaid, **do nothing**.

If you object to the release of information to Medicaid, now or at any time in the future, please state your objection in writing and forward it to the *Director of Special Education at the Winnebago County Special Education Cooperative, 11971 Wagon Wheel Road, Rockton, Illinois 61072*. Regardless of your decision the district must continue to provide, at no cost to you, the services listed in your child's IEP.

This program has **no impact** on your child's or your family's current or future Medicaid benefits. Under federal law, participation in this program CANNOT:

- a) decrease lifetime coverage or any other public insurance benefit,
- b) result in the family paying for services that would otherwise be covered by Medicaid,
- c) increase your premiums or lead to discontinuation of benefits or insurance, or
- d) result in the loss of eligibility for home and community-based waivers.

Your continued consent allows the district to recover a portion of the costs associated with providing health services to your child.

Elementary After School Care

Elementary After School Care (grades K-5) is provided by the YMCA of Rock River Valley until 5:30pm. Information for registration, programming and related fees for this program can be found on the YMCA website:

<https://rockriverymca.org/Programs/Youth-Development/Kids-Time/>

CLOSED CAMPUS POLICY

All Winnebago School District campuses are closed campus buildings. Students may not leave campus without a parent/guardian signing them out. In special cases, a student may be released with a parent/guardian phone call requesting that their child be released, or an administrator may grant approval. Students who leave campus without a parent signing them out and/or without administrative permission will be considered "out of bounds" and "absent-unexcused".

Attendance

Illinois law requires that whoever has custody or control of any child between six (on or before September 1) and seventeen years of age (unless the child has already graduated from high school) shall assure that the child attends school in the district in which he or she resides, during the entire time school is in session. Illinois law also requires that whoever has custody or control of a child who is enrolled in the school, regardless of the child's age, shall assure that the child attends school during the entire time school is in session.

Truancy

A parent or guardian who knowingly and willfully permits a child to be truant may be convicted of a Class C misdemeanor, which carries a maximum penalty of thirty days in jail and/or a fine of up to \$1500.00. Chronic or habitual "truant" shall be defined as a child who is subject to compulsory school attendance and who is absent without valid cause from such attendance for 5% or more of the previous 180 regular attendance days. A student who misses 15 consecutive days of school without valid cause and who cannot be located or, after exhausting all available support services, cannot be compelled to return to school, can be subject to expulsion from school.

Student Absences

Winnebago recognizes two types of absences: excused and unexcused.

Excused Absences

Excused absences include: illness, observance of a religious holiday, death in the immediate family, family emergency, situations beyond the control of the student, circumstances that cause reasonable concern to the parent/guardian for the student's safety or health—physical, mental, or emotional, attending a military funeral to sound TAPS (grades 6-12 only), or other reason as approved by the principal. All other absences are considered unexcused. Pre-arranged excused absences must be approved by the principal. Students are allowed one day-long excused absence per school year for the purpose of attending a civic event

Students who need to leave the school, due to an excused reason, must first receive permission to do so from the school nurse and/or building administrator. Contact must be made with the school nurse and/or building administrator prior to parent/guardian arrival.

Unexcused Absences

An unexcused absence is for reasons not meeting the requirements of the excused or explained provisions. For students in grades 6 through 12, if an absence is unexcused, assignments and assessments that were missed will be marked as a zero unless students receive approval from their administrator.

Some reasons for absence that are unexcused according to state and/or local regulations are as follows:

Car trouble	Gainful employment	Missing the school bus
Babysitting	Birthdays	Obtaining a drivers license
Oversleeping	Hair appointments	Trips not approved
Photography sessions	Shopping	Job interviews
Absences not verified by parent call	Leaving school without permission	Leaving assigned area without permission

The school may require documentation explaining the reason for the student’s absence. After missing 5 days of school per school year a student may be required to provide a doctor’s note verifying illness for future absences to be excused.

In the event of any absence such as sickness or a doctor’s appointment, the student’s parent or guardian is required to call the school before 8:00 a.m. to explain the reason for the absence. If a call has not been made to the school by 10:00 a.m. on the day of a student’s absence, a school official will call the home to inquire why the student is not at school. If the parent or guardian cannot be contacted, the student will be required to submit a signed note from the parent or guardian explaining the reason for the absence. Failure to do so shall result in an unexcused absence. Upon request of the parent or guardian, the reason for an absence will be kept confidential. Parents are required to provide current contact information to support parent/school communication regarding student safety and welfare.

Explained Absence

Explained absences constitute a student absence with the knowledge and consent of the parent but not meeting the “valid cause” requirements of the Illinois School Attendance Law. The primary absence in this category would be a parental trip or vacation. Except where extenuating circumstances are present, these absences should be arranged in advance with written notice to the school office. Explained absences will include family trips and events such as “Take Your Child to Work” day and may account for no more than 5 days in a school year. Make up of work missed during this absence is permitted at full credit but the responsibility for such make up is on the student. Students will be given at least 1 day for every day missed in order to complete missed work provided they have met all requirements. “College Visit Days” only apply to twelfth grade students, and individual exceptions may apply upon contact with the high school principal.

The office must approve explained absences at least one day in advance of the absence with written notice from the parent/guardian if the student is to be gone for more than three class periods. Planned absences during the last week of the grading period are discouraged. A prior clearance form must be picked up from the office in advance of the absence. Failure to complete the appropriate procedure will result in denial of the request and/or the absence recorded as unexcused. Students may use up to two of the five allotted Explained Absence school days to attend college visits, and will need to provide verification upon return from the college(s) they visited in order to have their absence approved.

Teachers are not required to spend extra time outside of the regular day for make-up due to an explained absence. This should be considered when deciding whether or not to take an explained absence.

Release Time for Religious Instruction/Observance

A student will be released from school, as an excused absence, to observe a religious holiday or for religious instruction. The student’s parent/guardian must give written notice to the building principal at least 5 calendar days before the student’s anticipated absence(s). Students excused for religious reasons will be given an opportunity to make up any examination, study, or work requirement.

Cross Reference:
School Board Policy 7:80, *Release Time for Religious Instruction/Observance*

Make-Up Work

If a student’s absence is excused, he/she will be permitted to make up any missed work, including homework and tests. The student will be permitted the same number of days as he/she was absent to turn in the make-up work. The student is responsible for obtaining assignments from his/her teachers. Students who have been suspended will be allowed the number of school days they missed due to suspension to make up any missing assignments, quizzes, and/or tests. The student is responsible for obtaining assignments from his/her teachers. **Students who miss school due to an unexcused absence may also lose a percentage of a project’s/assignment’s final score--as they were unable to participate, receive group and/or teacher feedback, and were unable to be a productive member of the class/group that day.**

*Late work policies will be determined by individual departments and/or teachers; see your teacher with questions regarding late work.

School Board Policy 7:70, *Attendance and Truancy*

Tardies

A student who is not in their designated area by the time the bell has completed ringing will be marked tardy. For every three tardies accumulated, the student will receive a referral. If a student continues said tardiness, more severe consequences may ensue; this may include the student being placed on academic probation, which may result in exclusion from extra-curricular participation.

Cross Reference:
School Board Policy 7:70, *Attendance and Truancy*

Grading & Promotion

School report cards are issued to students on at least a quarterly basis. For questions regarding grades, **please contact the classroom teacher**.

The decision to promote a student to the next grade level is based on successful completion of the curriculum, attendance, performance on standardized tests and other testing. A student will not be promoted based upon age or any other social reason not related to academic performance. Graduation/Promotion ceremonies and other related activities are considered as privileges; student participation in these activities may be withheld by administrative decision due to circumstances such as--but not limited to: outstanding discipline concerns, outstanding fees/fines, and timely completion of graduation/promotion requirements.

Academic Advancement – Winnebago Middle School

To move to the next grade level (6th to 7th, 7th to 8th, and 8th to 9th), a student must

1. Pass both semesters of core classes (ELA, math, science, and social studies) with at least a 60% (quarters 1 & 2 and quarters 3 & 4 will be averaged together, must be at least 60% to pass the semester).
2. Pass at least 4 out of 6 semesters of non-core courses all others not listed above, including PE, art, music, encore, etc.) with at least 60% average for the semester.

*If a student fails the first semester of a core class, they will remain in that course for the second semester, but will be required to complete a specific course during summer school to earn back the credit for the first semester.

*If a student fails the second semester of a core class, they will be required to complete a specific course during the summer to earn back the credit for the second semester.

*If a student does not pass at least 4 out of 6 semesters of non-core classes, they will be required to complete a specific course during the summer to earn back the credit for each semester failed below the required four.

Any changes to this plan require administrator, parent, and teacher approval.

Homework

Homework is used as a way for students to practice what they have learned in the classroom. The time requirements and the frequency of homework will vary depending on a student's teacher, ability and grade level.

Home and Hospital Instruction

A student who is absent from school for an extended period of time, or has ongoing intermittent absences because of a medical condition, may be eligible for instruction in the student's home or hospital. A notification from a treating physician is required. Appropriate educational services from qualified staff will begin no later than 5 school days after receiving a written statement from a physician, physician assistant, or licensed advanced practice registered nurse. Instructional or related services for a student receiving special education services will be determined by the student's individualized education program.

A student who is unable to attend school because of pregnancy will be provided home instruction, correspondence courses, or other courses of instruction before the birth of the child when the student's physician indicates, in writing, that she is medically unable to attend regular classroom instruction as well as for up to 3 months after the child's birth or a miscarriage.

For information on home or hospital instruction, contact the school office.

Fines, Fees, and Charges; Waiver of Student Fees

The school establishes fees and charges to fund certain school activities. Some students may be unable to pay these fees. Students will not be denied educational services or academic credit due to the inability of their parent or guardian to pay fees or certain charges. When the student, parent, or guardian pays for a fee, fine and/or charge, and the payment process shows insufficient funds from the bank, the student, parent, or guardian is expected to reimburse the school and/or district for the bank penalty, including the initial fee, fine and/or charge. Students whose parent or guardian is unable to afford student fees may receive a fee waiver. A fee waiver does not exempt a student from charges for lost and damaged books, locks, materials, supplies, and/or equipment. ***Note that in order to participate in extracurricular activities, students must first have all fees/fines paid in full.**

Instructions for Application of Waiver of Fees

- Only one application per family.
- A new application must be completed each school year.
- Applicants are responsible for all fees incurred prior to approval.
- Waived amount only to apply from approval date
- Families must submit an application for the free and reduced lunch (meal) program

Fees for textbooks, basic instructional materials, driver education and other instructional fees are waived for students who meet eligibility criteria for a fee waiver as described in this policy.

This application for a school fee waiver is completely independent from the District process for determining eligibility for free meals. The information from the free lunch (meals) application must be provided for your application of waiver of fees to be considered. Submit the completed application and income verification documents to the district office.

Winnebago CUSD 323 may grant a waiver of fees when one or more of the following factors resulted in the loss or reduction of family income: (a) illness in the family; (b) unusual expenses caused by fire, flood, storm, etc.; (c) seasonal employment; (d) emergency situation; or (e) one or more parent/guardian is involved in a work stoppage.

Only one application is needed per household provided all current students are listed on the application. A new Application Form of Waiver of Fees must be submitted at the beginning of each school year.

REAPPLICATION: You may apply for a fee waiver at any time during the school year. If you are not eligible now but have a change, such as a decrease in household income, an increase in household size, become unemployed or receive state public aid, SNAP or TANF for your children, fill out an application at that time.

You will be notified by mail when the application is approved or denied.

Bus Conduct Policy and Discipline Procedures

Section 1: Transportation Conduct Policy

It is the intention of Winnebago Community Unit School District #323 to operate a safe and efficient transportation system for all eligible riders. This intention can best be achieved through a uniform behavior and discipline policy. Therefore, the following rules and discipline procedures will be strictly enforced.

All student behaviors that cause or may cause a safety concern for passengers, the driver, pedestrians, or other drivers may result in suspension from the school bus.

All students should assume they are being videotaped while riding a District #323 bus. Our busses are equipped with cameras and are randomly selected for viewing. We also monitor the busses where behavior problems are a concern. These tapes may be used for disciplinary purposes or referral to law enforcement for possible criminal charges. Riding a school bus is a privilege, not a right. Therefore, this privilege can be revoked for recurring unsafe and/or disruptive behavior.

Due to the fact that most of our busses are transporting students from different grade levels, and these students are within a wide range of developmental stages, we keep in mind that behavioral expectations may vary according to the child. Therefore, we reserve the right to take the specific needs of the child into consideration when applying discipline.

General Rules

1. The bus driver’s instructions are to be followed at all times. This will promote an orderly and safe environment.
2. The driver may assign seats and/or seatbelts. In cases of permanent assignment, a seating chart will be kept in the driver’s on-bus folder and in the Transportation office.
3. Students shall not bring on-board the school bus any item that could be disruptive or interfere with the safety of students. The driver will be the first line of discernment.
4. Students shall not bring on-board any large item that interferes with the proper seating or evacuation of bus riders. This includes large musical instruments (drum, keyboard, tuba, etc), large school projects, athletic equipment, etc. Permission can be granted at the discretion of the driver or the Transportation office, but must be obtained prior to boarding the bus. If the item interferes with seating or safety, the parent/guardian will be responsible for transporting the item.
5. The custodial parent/guardian shall be held liable for any vandalism committed by their child and shall be required to make restitution.
6. Students shall ride only their assigned bus and shall not board or depart the bus at any stop other than their regularly assigned stop. Emergency changes must be approved, in writing, by the school principal/designee, or verbally by the Transportation Dept/designee.
7. Bus stops are extensions of the bus. All behaviors that are unacceptable on the bus or on school grounds are unacceptable at the bus stop. Disciplinary actions for infractions, which occur at a bus stop, will be handled as though they occurred on the bus or any other district property.
8. The mere fact that a student can be disciplined for behavior at a bus stop does not give rise to liability by the district nor is it intended that the district is responsible to supervise riders at a bus stop. Ultimately, parents are responsible for their child’s behavior prior to the arrival of the bus and after the bus departs when they are dropped off.
9. Suspension from district transportation does not negate the student’s obligation to attend school. It is the responsibility of the custodial parent/ guardian to provide transportation during a suspension from district transportation. Students unable to attend school due to lack of transportation may complete make up work in accordance with District policy.
10. The custodial parent/guardian may appeal a bus suspension or other disciplinary action by contacting the Transportation office. Students will not be permitted to ride district transportation while awaiting the outcome of a transportation suspension appeal.
11. The School Board of C.U.S.D.#323 recognizes that the student transportation policy must be construed to be consistent with the Individuals With Disability Education Act ("IDEA") and Section 504 of the Rehabilitation Act ("Section 504"). Students eligible for services under the IDEA or Section 504 will be disciplined in accordance with these Acts.

Bus Stop Procedures
<ul style="list-style-type: none"> * Arrive at least five minutes early. * Stay off the road. * Wait for the bus to come to a complete stop. * Line up and board in an orderly fashion. * Respect private property (lawn, mailbox, etc.) * Cross the street in front of the bus, not behind.

Seating Procedures
<ul style="list-style-type: none"> * Go directly to your seat without disturbing others. * Always sit facing forward. * Remain seated until the bus comes to a complete stop.

Section 2: Transportation Discipline Policy

The Transportation Office will handle all student rider discipline issues. However, any behavior that is a violation of both Transportation policy and school discipline code will be turned in to the appropriate school office and the student will be subject to multiple disciplinary actions. The Transportation Office will forward copies of Disciplinary Forms to the appropriate school official/designee. The Transportation Office reserves the right to suspend transportation to a student if any of the Bus Stop, Seating Procedures and/or General Rules in Section 1 are violated resulting in a disruption and/or safety concern. School administrators may suspend a student from transportation for up to 10 days, while the Board may impose a longer period of suspension.

Incidents of unacceptable student behavior and possible consequences are divided into Level I, II, and III offenses depending on the severity of the incident. Due to extreme safety concerns, level II and III offenses begin with an automatic suspension.

All behavior problems will be recorded by the driver on a Daily Record of Student Behavior/Discipline Log. Due to the fact that we cannot predict all possible violations, any violation not spoken to will be evaluated on a case-by-case basis by the appropriate transportation/school official.

LEVEL I OFFENSE
<ul style="list-style-type: none"> * Failure to follow the driver’s instructions in a timely manner. * Eating or drinking. * Throwing objects inside the bus. * Standing while the bus is in motion. * Excessively late to bus stop or in boarding the bus. * Profanity or obscene gestures. * Harassment or intimidation of any form * Riding on a bus other than the assigned route. * Boarding or exiting other than the assigned stop.

LEVEL I DISCIPLINE
<p>First Offense: Verbal reprimand by driver and recorded on driver’s Record of Student Behavior/Discipline log.</p> <p>Second Offense and subsequent offences:</p> <ul style="list-style-type: none"> ● Verbal correction ● Seating change (long or short term) ● Conference on bus ● Conference with administration ● Contact with parent/guardian ● Incentives/positive reinforcement
<ul style="list-style-type: none"> ● Review of bus rules ● Removal of prohibited/problematic item <p>Issues that are persistent and/or pertain to safety concerns may result in a bus suspension for a designated time to be determined by Transportation Department and/or administrator.</p>

LEVEL II OFFENSE

- Threatening the school bus driver.

Student Parking

Students must park their vehicles in their assigned spot. Repeated violation of parking in other students' spots will lead to a referral, towing of vehicle, and/or suspension of parking privileges without refund. Vehicles must be parked between the painted lines, and must be driven under the speed limit of 10 miles per hour while in the lot. Vehicles should be driven safely and must yield to pedestrians. Vehicles parked outside painted lines or designated parking spots may be ticketed or towed at the discretion of the school, at the vehicle owner's expense. Students caught driving recklessly in the parking lot may be subject to disciplinary action.

The lots designated for school staff, personnel, and others MAY NOT be used by students at any time. Student vehicles parked in these lots may be ticketed or towed at the discretion of administration.

The school is not responsible for student vehicles, any possessions left in them, or anything attached to the vehicles. **STUDENTS PARK THEIR VEHICLES ON OR NEAR SCHOOL PROPERTY AT THEIR OWN RISK.** Students should be aware their vehicles are not protected in any way while in the parking lot, and items of value should not be left in or near the vehicle while unattended.

Students have no reasonable expectation of privacy in cars parked on school grounds. Contraband dogs, administration, and police officers regularly search school lots. Students should be aware that items and spaces on school grounds are subject to search and view by others, and that prohibited items discovered during the course of a search may result in discipline, including, but not limited to, expulsion from school.

Vehicles MAY NOT be parked or located in the bus lanes or fire lanes at ANY TIME. Bus lanes and fire lanes are clearly marked. Vehicles located in these locations may be ticketed and/or towed by the police at the owner's expense.

Video cameras may be active in parking lots and may be used for the purposes of investigation into student misconduct. Discipline for misconduct includes all disciplinary measures in the student discipline code and/or withdrawal of parking privileges.

Visitor Parking

Visitor parking is available at each school building. Those dropping off and picking up children may do so in the designated location.

Vehicles **MAY NOT** be parked or located in the bus lanes or fire lanes at ANY TIME, or handicapped parking without current, valid disabled placard. Bus lanes, fire lanes, and handicapped parking are clearly marked. Vehicles located in these locations may be ticketed and/or towed by the police at the owner's expense.

Food Allergies

We have many students with serious food borne allergies. To help prevent life threatening allergic reactions, also known as anaphylaxis, we are putting the following safety guidelines into effect:

- There will be a table in each cafeteria designated as "Allergen aware" to assist in keeping allergen exposure to a minimum and allow the students with severe allergies to be monitored for safety.
- An alternative lunch location may be assigned to students that have severe/life threatening food allergies. This is based on doctor's orders and/or recommendations.
- If any classroom project or art project contains food products or any other potential allergen concerns, the nurse will be notified and approve said project based on students' known/reported allergies and/or find an alternative that would be safe for all.

If throughout the course of the year you have any questions or concerns about food-allergy related issues, please do not hesitate to contact the school nurse or building principal.

If throughout the course of the year you have any questions or concerns about food-allergy related issues, please do not hesitate to contact the school nurse or building principal.

ASTHMA EPISODE EMERGENCY RESPONSE PROTOCOL

Effective January 1, 2017 following an amendment to 105 ILCS 5/22.-30, pursuant to Public Act 99-0843, all school districts must implement an "Asthma Episode Emergency Response Protocol." This protocol is designed to provide assistance to a pupil experiencing symptoms of wheezing, coughing, shortness of breath, chest tightness, or breathing difficulty. Annually, Winnebago CUSD #323 shall request an asthma action plan from the parents/guardians of a student with diagnosed asthma. If provided, the asthma action plan will be kept on file in the health office. Copies of a student's asthma action plan may be distributed to appropriate school staff who interact with the student on a regular basis, and, if applicable, may be attached to the student's federal Section 504 plan or individualized education program

Section 504 as pertaining to Health Conditions/Concerns

State law requires our school district to annually inform parents of students with life-threatening allergies or a diagnosis of a chronic condition that may impact their education, of the applicable provisions of Section 504 of the Rehabilitation Act of 1973

and other applicable federal statutes, state statutes, federal regulations and state rules. Federal law protects students from discrimination due to a disability that substantially limits a major life activity. If your student has a qualifying disability, an individualized Section 504 Plan will be developed and implemented to provide the needed supports so that your student can access his or her education as effectively as students without disabilities. Not all students with life-threatening allergies and/or a diagnosis of a chronic condition may be eligible under Section 504. Our school district also may be able to appropriately meet a student's needs through other means. If your student has such an allergy or chronic condition, please notify the building principal.

Immunization, Health, Eye and Dental Examinations

All students are required to provide a completed Illinois Physical Form (or a physical form from another state if it includes the same review of systems) within one year prior to:

- Entering Pre-K, Kindergarten, Sixth, Ninth, and Twelfth grades
- Enrolling in an Illinois school for the first time, regardless of the student's grade.

The required health examination must include a diabetes screening (diabetes testing is not required), contain a social/emotional screening, and a statement from a physician assuring a lead questionnaire was administered and/or if a blood test was indicated. Failure to comply with the above requirements by October 15 of the current school year will result in the student's exclusion from school until the required health forms are presented to the school, subject to certain exceptions.

New students who register mid-term shall have 30 days following registration to comply with the health examination and immunization regulations.

If a medical reason prevents a student from receiving a required immunization by October 15, the student must present, by October 15,

an immunization schedule and a statement of the medical reasons causing the delay. A physician licensed (MD, DO) to practice medicine in all its branches, an advanced practice nurse or a physician assistant must sign the schedule and statement of medical reasons.

Eye Examination

All students entering Kindergarten or an Illinois school for the first time are required to provide a completed Illinois Eye Examination

form within one year prior to entry before October 15 of the current school year. Failure to present proof by October 15, allows the school to hold the student's report card until the student presents: (1) a completed Illinois Eye Examination form or an Eye Examination

Form Waiver, or (2) that an eye examination will take place within 60 days after October 15.

Dental Examination

All children entering Kindergarten, second, sixth, and ninth grades are required to provide a completed Illinois Dental Form signed by a

licensed dentist before May 15 of the current school year. Dental exams are valid 18 months prior to May 15 of the current school year.

Example: Current school year is 2023, so exams that took place from November 15, 2021 through May 15, 2023 would be considered

valid. The school district reserves the right to withhold the child's report card for failure to provide either proof of dental exam, dental exam waiver form, or proof of upcoming appointment within 60 days by May 15th of the current school year.

Exemptions

Religious Exemption

To receive an exemption to vaccination/examination, a parent or legal guardian must provide a statement on the designated ILLINOIS

CERTIFICATE OF RELIGIOUS EXEMPTION TO REQUIRED IMMUNIZATIONS AND/OR EXAMINATIONS FORM detailing the religious beliefs that prevent the child from receiving each required school vaccinations/examination being requested. The parent or

legal guardian must list out each vaccination or examination exemption requested and state the religious grounds for each request.

Medical Exemption

Any medical exemption from an immunization shall be:

- 1) Made by the examining physician licensed (MD or DO) to practice medicine in all its branches, an advanced practice nurse or a physician assistant responsible for the performance of the health examination indicating what the medical condition of the child is that makes administration of one or more of the required immunizing agents medically contraindicated; *and*
- 2) Endorsed and signed by the examining physician, advanced practice nurse or physician assistant responsible for the performance of

the health examination on the health examination form.

*A medical exemption cannot be based on family history, it can only be based on the student's medical history.

Vision and hearing screening will take place annually in each school throughout the school year as mandated by the State of Illinois. Vision screening completed at school is not a substitute for a complete vision evaluation by an eye doctor. Your child is not required to undergo this vision screening if an eye doctor has completed an examination within the last 12 months. Parents/guardians are still encouraged to have their children undergo a vision examination whenever health examinations are required.

Concussions

Return to Learn protocol applies to all students attending Winnebago CUSD #323 (pre-k through 12th grade) who may require academic accommodations while recovering from a concussion, regardless of where the concussion occurred. The Return to Learn protocol must come from the diagnosing physician or care provider along with recommended accommodations while at school

Guidance to Parents Regarding Your Sick Child:

If your child has any of the following symptoms, please keep them home and call the school office to report their absence. If your child exhibits any of these symptoms at school, it will be necessary for your student to be picked up.

- Thick mucus or pus draining from the eye
- Sore throat with white spots on back of the throat with fever
- Temperature of 100.4 F or higher. *Children must be fever free for 24 hours without taking anti-fever meds (Tylenol or Ibuprofen) before returning to school.*
- Three or more watery stools or diarrhea in a 24-hour period. *Children must be diarrhea free for 24 hours before returning to school.*
- Vomiting. *Children must not have vomited for 24 hours before returning to school.*

The school nurse can be helpful in consulting with you regarding your child's health status. The school nurse also retains the right to require a recovery day if symptoms are severe or reoccur.

During a pandemic or other health emergency, always follow your school's posted guidelines/requirements regarding when students must remain at home for safety.

Care of Students with Diabetes

If your child has diabetes and requires assistance with managing this condition while at school and school functions, a Diabetes Care Plan signed by the parent/guardian must be submitted to the school nurse.

Parents/guardians are responsible for and must:

- Inform the school in a timely manner of any changes that need to be made to the Diabetes Care Plan on file.
- Inform the school in a timely manner of any changes to their emergency contact numbers.
- Provide all treatment items (alcohol pads, needles, emergency glucagon, insulin, etc.) including food and/or drinks for treatment of hypoglycemia.

For further information, please contact the Building Nurse.

Student Medication

Taking medication during school hours or during school-related activities is prohibited unless it is necessary for a student's health and well-being. When a student's licensed health care provider and parent/guardian believe that it is necessary for the student to take medication during school hours or school-related activities, the parent/guardian must request that the school dispense the medication to the child by completing a "Student Medical Authorization Form."

No school or district employee is allowed to administer to any student, or supervise a student's self-administration of, any prescription or non-prescription medication until a completed and signed School Medication Authorization Form is submitted by the student's parent/guardian. No student is allowed to possess or consume any prescription or non-prescription medication (over-the-counter or OTC) on school grounds or at a school-related function other than as provided for in this procedure.

Self-Administration of Medication

A student may possess and self-administer an epinephrine injector (EpiPen®) and/or an asthma inhaler prescribed for immediate use at the student's discretion, provided the student's parent/guardian has completed and signed an Authorization for Student Self-Medication Form and the prescribing physician has signed off authorizing the student to self-carry and self-administer. The Superintendent or designee will ensure an Emergency Action Plan is developed for each self-administering student.

A student may self-administer medication required under a qualifying plan, provided the student's parent/guardian has completed and signed an Authorization for Student Self-Medication Form. A qualifying plan means: (1) an asthma action plan, (2) an Individualized

Health Care Action Plan, (3) an Illinois Food Allergy Emergency Action Plan and Treatment Authorization Form, (4) a plan pursuant to Section 504 of the federal Rehabilitation Act of 1973, or (5) a plan pursuant to the federal Individuals with Disabilities Education Act.

The school and district shall incur no liability, except for willful and wanton conduct, as a result of any injury arising from a student's self-administration of medication, including asthma medication or epinephrine injectors, or medication required under a qualifying plan. A student's parent/guardian must indemnify and hold harmless the school district and its employees and agents, against any claims, except a claim based on willful and wanton conduct, arising out of a student's self-administration of an epinephrine injector, asthma inhaler, and/or a medication required under a qualifying plan.

Administration of Medical Cannabis

A designated caregiver, a parent/guardian at least 21 years of age, is allowed to administer a medical cannabis infused product to a child who is a student on the premises of his/her school or on their bus **IF**: a.) both the student and the designated caregiver possess valid registry identification cards issued by IDPH, b.) copies of the registry identification cards are provided to the district, and c.) the student's parent/guardian completed, signed, and submitted a school medication authorization form for medical cannabis. Medical cannabis infused product includes: oils, ointments, food, and other products that contain usable cannabis but are not smoked or vaped. Smoking and/or vaping any form of cannabis is prohibited. After administration of the product to the student, the caregiver shall immediately remove it from school premises or the bus. The product may not be administered in a manner that, in the opinion of the district or school, would create a disruption to the educational environment or cause exposure of the product to other students. A school employee shall not be required to administer the product.

School District Supply of Undesignated Epinephrine Auto-Injectors

The Superintendent or designee shall implement Section 22-30(f) of the School Code and maintain a supply of undesignated auto-injectors/emergency asthma medication/opioid antagonists in the name of the District and provide or administer them as necessary according to State law. Undesignated means medication prescribed in the name of the District or one of its schools. A school nurse or trained personnel, as defined in State law, may administer an undesignated epinephrine auto-injector/asthma medication/opioid antagonist to a person when they, in good faith, believe a person is having an anaphylactic reaction/asthmatic reaction/opioid overdose.

This section of the policy is void whenever the Superintendent or designee is, for whatever reason, unable to: (1) obtain for the District a prescription for undesignated epinephrine auto-injectors/emergency asthma medication/opioid antagonist from a physician or advanced practice nurse licensed to practice medicine in all its branches, or (2) fill the District's prescription for said undesignated medications.

Upon any administration of an undesignated epinephrine auto-injector/emergency asthma medication/opioid antagonist, the Superintendent or designee(s) must ensure all notifications required by State law and administrative procedures occur.

Upon implementation of this policy, the protections from liability and hold harmless provisions as explained in Section 22-30© of the School Code apply.

No one, including without limitation parents/guardians of students, should rely on the District for the availability of an epinephrine auto-injector/emergency asthma medication/opioid antagonist. This policy does not guarantee the availability of an epinephrine auto-injector/emergency asthma medication/opioid antagonist: students and their parents/guardians should consult their own physician regarding this medication.

- The school can provide written guidance to the parent and guardian as to where they can seek appropriate treatment for the communicable disease.
- A student excluded because of a communicable disease will be permitted to return to school only when the parent or guardian brings to the school a letter from the student's doctor or WCHD stating that the student is no longer contagious or at risk of spreading the communicable disease.

*School operations during a pandemic or other health emergency will be determined based on WCHD and/or CDC guidelines in a manner that embraces the goal of providing the best possible education while keeping students and staff as safe as possible.

Operations specifics, as well as any adjustments or changes that may be necessary, will be communicated in a timely manner.

In-School Detention (ISD)

Violations for which a student receives an in-school detention are identified at Levels 2, 3, 4 of Behavior Offenses. A student receiving an in-school detention will be allowed to make-up homework and daily work. A student placed in in-school detention will be expected to follow the in-school detention rules. Students who fail to follow these rules will not be released from in-school detention until they do. In some instances, it may be necessary to have a conference with the student’s parents.

Saturday School (SS)

In some instances, secondary administrators may issue a Saturday School intervention. Any student who does not attend Saturday School can be issued a two-day suspension. Administration reserves the right to assign a make-up session plus an additional session if a student fails to serve an assigned Saturday School session. Any student who has not served a Saturday School may not attend any extra-curricular events/activities until they have served a make-up session or a suspension.

Out-of-School Suspension (OSS)

Violations for which a student will receive an out-of-school suspension are generally limited to Level 3 and 4 violations. Before any student is suspended he/she will be afforded due process. A student may not participate in curricular or extracurricular activities the day of the suspension. The types of suspension are short term or long term. These are explained in greater detail below. Any student who has been suspended may lose his/her privilege to participate in class or on field trips; the administration will make a final decision concerning participation on field trips. In some instances, a student will not be allowed to return to school from a suspension until a conference has been scheduled between the parent and administration. For any suspension the student and/or parents have a right to request a review of the suspension. Any student who receives an out-of-school suspension will be allowed to make up their daily work at 100%. Students who are serving an Out-of-School will be offered the opportunity to make up work in accordance with district make up work policies (see pg. 6). Students who are suspended from school may not attend extra-curricular events/activities.

Short Term Suspension (STS)

- 1-3 days --- behavior for which the student’s continuing presence poses a safety risk within the school or disruption to the learning for others.

Long Term Suspension (LTS)

- 4-10 days – behavior for which the student’s continuing presence poses a safety risk to other students, staff or members of the school community, or substantially disrupt, impede or interfere with school operations and for which other interventions have been exhausted or deemed not appropriate by the administration.

Isolated Time Out, Time Out, and Physical Restraint

Isolated time out, time out, and physical restraint shall only be used as a last resort and if the student’s behavior presents an imminent danger of serious physical harm to the student or others.

Corporal Punishment

Corporal punishment is illegal and will not be used. Corporal punishment is defined as slapping, paddling, or prolonged maintenance of students in physically painful positions, or intentional infliction of bodily harm. Corporal punishment does not include reasonable force as needed to maintain safety for students, staff, or other persons, or for the purpose of self-defense or defense of property.

This policy’s prohibitions concerning weapons apply regardless of whether: (1) a student is licensed to carry a concealed firearm, or (2) the Board permits visitors, who are licensed to carry a concealed firearm, to store a firearm in a locked vehicle in a school parking area.

- a. Use of any unauthorized personal equipment attached, connected, and/or installed to district network;
 - b. Intentionally disrupting the use of the network for other users, including, but not limited to, disruptive use of any processes or programs, sharing logins and passwords or utilizing tools for ascertaining passwords, spreading computer viruses, engaging in "hacking" of any kind, use of proxy or filter avoidance software or devices, and/or engaging in computer tampering of any kind;
 - c. Disclosing the contents or existence of computer files, confidential documents, e-mail correspondence, or other information to anyone other than authorized recipients. Authorized users must not share logins or password(s) and unauthorized information regarding other users' passwords or security systems;
 - d. Network security is a high priority. If you can identify a security problem on the network, you must notify a system administrator. Do not demonstrate the problem to other users. Keep your account and password confidential. Do not use another individual's account. Attempts to log on to the network, as a system administrator will result in cancellation of user privileges. Any user identified as a security risk or having a history of problems with other computer systems may be denied access to the network;
8. **Vandalism** - Vandalism will result in cancellation of privileges and other disciplinary action. Vandalism is defined as any malicious attempt to harm or destroy data of another user, the Internet, or any other network. This includes, but is not limited to, the uploading or creation of computer viruses.
9. **Telephone Charges** - The District assumes no responsibility for any unauthorized charges or fees, including telephone charges, long-distance charges, per-minute surcharges, and/or equipment of line costs.
10. **Copyright Web Publishing Rules** - Copyright law and District policy prohibit the republishing of text or graphics found on the Web or on District Web sites or file servers without explicit written permission.
- a. For each republication (on a Web site or file server) of a graphic or a text file that was produced externally, there must be a notice at the bottom of the page crediting the original producer and noting how and when permission was granted. If possible, the notice should also include the Web address of the original source.
 - b. Students and staff engaged in producing Web pages must provide library media specialists with e-mail or hard copy permissions before the Web pages are published. Printed evidence of the status of "public domain" documents must be provided.
 - c. The absence of a copyright notice may not be interpreted as permission to copy the materials. Only the copyright

owner may provide the permission. The manager of the Web site displaying the material may not be considered a source of permission.

- d. The “fair use” rules governing student reports in classrooms are less stringent and permit limited use of graphics and text.
- e. Student work may only be published if there is written permission from both the parent/guardian and student.

11. **Use of Electronic Mail**

The District’s electronic mail system, and its constituent software, hardware, and data files, are owned and controlled by the School District. The School District provides e-mail to aid students and staff members in fulfilling their duties and responsibilities, and as an education tool.

- a. The District reserves the right to access and disclose the contents of any account on its system, without prior notice or permission from the account’s user. Unauthorized access by any student or staff member to an electronic mail account is strictly prohibited.
- b. Each person should use the same degree of care in drafting an electronic mail message as would be put into a written memorandum or document. Nothing should be transmitted in an e-mail message that would be inappropriate in a letter or memorandum.
- c. Electronic messages transmitted via the School District’s Internet gateway carry with them an identification of the user’s Internet “domain.” This domain name is a registered domain name and identifies the author as being with the School District. Great care should be taken, therefore, in the composition of such messages and how such messages might reflect on the name and reputation of the School District. Users will be held personally responsible for the content of any and all electronic mail messages transmitted to external recipients.
- d. Any message received from an unknown sender via the Internet should either be immediately deleted or forwarded to the system administrator. Downloading any file attached to any Internet-based message is prohibited unless the user is certain of that message’s authenticity and the nature of the file so transmitted.
- e. Use of the School District’s electronic mail system constitutes consent to these regulations.

12. **Online Activities**

a. **Educational Purposes**

Authorized users may create web pages as a part of a class activity. Material presented on a class website must meet the educational objectives of the class activity. The District has the right to exercise control over the content and/or style of the student web pages.

Only those students whose parent(s) or guardian(s) have completed the Authorization for Electronic Network Access Form Permission for Publication section may post their work or picture on student or school websites. Students whose work, likeness (as captured by photograph, video or other media) or voices are presented on a student website shall be identified by first name only for confidentiality and safety purposes.

b. **Electronic Social Networking**

While home-based web sites, message boards, blogs, forums, and other uses of home-based computers may be regarded as a benefit to a student’s computer literacy, the student needs to be aware of the following:

Using a non-district computer, either during or outside of the regular school day, such that the use results in material and/or substantial disruption to the school will constitute grounds to investigate whether the use violates applicable law (see Greenfield BOE vs. Boucher, 1998) or district rules. Should such misuse be found, the school will implement appropriate consequences as defined in the acceptable use policy and the student discipline code. As district network use is a privilege, such violations may result in suspension of use of district network or other technology for a period of time based upon the seriousness of the offense’s impact or a threat’s ability to have caused material and/or substantial disruption were it carried out.

In addition, state law requires the District to notify students and their parents/guardians that school officials may request or require a student or his or her parent/guardian to provide a password or other related account information to gain access to the student’s account or profile on a social networking website. This request may be made only if there is reasonable cause to believe that the student’s account contains evidence that he or she violated a school disciplinary rule or Board policy.

13. **Monitoring**

The District network is routinely monitored to maintain the efficiency of the system. Authorized users should be aware that use of network resources, including their use of e-mail, is subject to monitoring by the superintendent, technology director, or his/her designee. Any activities related to or in support of violations of this policy and/or the Student Handbook may be reported and will subject the user to sanctions specified either in the Student Handbook or in this policy. The district reserves the right to access and disclose the contents of any account on its system, without prior notice or permission from the user.

14. **Internet Safety**

Internet access is limited to only those “acceptable uses” as detailed in these procedures. Internet safety is almost assured if users will not engage in “unacceptable uses”, as detailed in these procedures, and otherwise follow these procedures.

Staff members shall supervise students while students are using District Internet access to ensure that the students abide by the Terms and Conditions for Internet access contained in these procedures.

Each District computer with Internet access is filtered in a manner to block entry to visual depictions that are (1) obscene, (2) pornographic, or (3) harmful or inappropriate for students, as defined by the Children’s Internet Protection Act and as determined by the Superintendent or designee.

The system administrator and Building Principals shall monitor student Internet access.

Disciplinary Procedures for Violations of Technology AUP

The computers are tools to use for all students and must be handled accordingly. The computer is not personal property and any changes to the computer must be approved by a teacher/supervisor. Any problems with a computer must be brought to the attention of the teacher/supervisor at once. No student may install, delete or change programs or files that are not owned by that student. Students are not allowed to make changes to hardware configurations or software configurations. Attempts of any kind to change, alter or make different any software or hardware component or the output thereof without permission will be cause for disciplinary action. If said change, alteration or difference causes damages the student may also be liable for costs. This may cause civil law suits to be brought against the student by the software author or manufacturer of the hardware component. It is the duty of all citizens (and that includes students) to remember that there are laws governing the use of products and components (Copyright Law-Public Law 94-553 enacted January 1, 1978) and that we as an institution are obligated to ensure that all students learn about and obey those laws. School Board Policy 6.235 likewise governs the appropriate use of the District's electronic network.

It is the responsibility of each student to ensure the security of his or her password and user ID. Students must log off the computer every time they need to leave the machine. If they do not log off the computer, they will be held responsible for any misuse of that machine which might occur while they are away.

While home-based student web sites, message boards, blogs, forums and other uses of home-based computers may be regarded as a benefit to a student's computer literacy, the student needs to be aware of the following:

Using a non-school based computer such that the use results in material and/or substantial disruption to the school will constitute grounds to investigate whether the use violates applicable law (see Greenfield BOE vs. Boucher, 1998) or district rules. Should such misuse be found, the school will implement appropriate consequences as defined in the acceptable use policy and the student discipline code. As computer use is a privilege, such violations may result in suspension of your use of any school technologies for a period of time based upon the seriousness of the offense's impact or a threat's ability to have caused material and/or substantial disruption were it carried out.

Any problems with a computer/device must be brought to the attention of the teacher/supervisor at once—failure to notify will be considered a 1st violation of a Level 1 Behavior Offense. If equipment is found to be damaged that was not reported, the most recent user of the piece of equipment will be responsible for restitution/repair costs. The chart below serves as a guideline for violations of the Technology AUP, however due to rapid changes in technology, there may be additional violations not listed. Be aware that these violations are cumulative, for example: a 1st violation in one category under each level of offense may be treated as a 2nd violation if the student has previously had consequences for a 1st violation in a different category. In addition to any general disciplinary consequences that may apply given the nature of the misconduct, students who engage in misuse of technology may be subject to:

Guidelines for Student Distribution of Non-School-Sponsored Publications

A student or group of students seeking to distribute more than 10 copies of the same material on one or more days to students must comply with the following guidelines:

1. The building principal must review the material in advance for purposes of ensuring that the material is not otherwise prohibited from distribution, as set forth in section 6, and does not suggest it is school sponsored.
2. The material may be distributed at times and locations selected by the building principal, such as, before the beginning or ending of classes at a central location inside the building.
3. The building principal may impose additional requirements whenever necessary to prevent disruption, congestion, or the perception that the material is school-endorsed.
4. Distribution must be done in an orderly and peaceful manner, and may not be coercive.
5. The distribution must be conducted in a manner that does not cause additional work for school personnel. Students who distribute material are responsible for cleaning up any materials left on school grounds.
6. Students must not distribute material that:
 - a. Will cause substantial disruption of the proper and orderly operation and discipline of the school or school activities;
 - b. Violates the rights of others, including but not limited to, material that is libelous, invades the privacy of others, or infringes on a copyright;
 - c. Is socially inappropriate or inappropriate due to the students' maturity level, including but not limited to, material that is obscene, pornographic, or pervasively lewd and vulgar, contains indecent and vulgar language, or sexting as defined by School Board policy and Student Handbook;
 - d. Is reasonably viewed as promoting illegal drug use; or
 - e. Is primarily prepared by non-students.
7. A student may use the School District's Uniform Grievance Procedure to resolve a complaint.
8. Whenever these guidelines require written notification, the appropriate administrator may assist the student in preparing such notification.

A student or group of students seeking to distribute 10 or fewer copies of the same publication on one or more days to students must distribute such material at times and places and in a manner that will not cause substantial disruption of the proper and orderly operation and discipline of the school or school activities and in compliance with paragraphs 4, 5, 6, and 7.

Search and Seizure

In order to maintain order safety and security in the schools, school authorities are authorized to conduct reasonable searches of school property and equipment, as well as of students and their personal effects. "School authorities" include school liaison police officers.

School Property and Equipment as well as Personal Effects Left There by Students

School authorities may inspect and search school property and equipment owned or controlled by the school (such as, lockers, desks, and parking lots), as well as personal effects left there by a student, without notice to or the consent of the student. Students have no reasonable expectation of privacy in these places or areas or in their personal effects left there.

The building principal may request the assistance of law enforcement officials to conduct inspections and searches of lockers, desks, parking lots, and other school property and equipment for illegal drugs, weapons, or other illegal or dangerous substances or materials, including searches conducted through the use of specially trained dogs.

Students

School authorities may search a student and/or the student's personal effects in the student's possession (such as, purses, wallets, knapsacks, book bags, lunch boxes, etc.) when there is a reasonable ground for suspecting that the search will produce evidence the particular student has violated or is violating either the law or the school or district's student rules and policies. The search will be conducted in a manner that is reasonably related to its objective of the search and not excessively intrusive in light of the student's age and sex, and the nature of the infraction.

Seizure of Property

If a search produces evidence that the student has violated or is violating either the law or the school or district's policies or rules, evidence may be seized and impounded by school authorities, and disciplinary action may be taken. When appropriate, evidence may be transferred to law enforcement authorities.

Access to Student Social Networking Passwords & Websites

School officials may conduct an investigation or require a student to cooperate in an investigation if there is specific information about activity on the student's account on a social networking website that violates a school disciplinary rule or policy. In the course of an investigation, the student may be required to share the content that is reported in order to allow school officials to make a factual determination.

Winnebago School District #323 Extra-Curricular Code

*Students attending any extra-curricular activity must remain at the event for the duration of the event. If a student leaves during an event they will not be readmitted unless they leave and return with their parent. All students attending extra-curricular events must adhere to the Winnebago Student Code of Conduct, as well as the IHSA code for proper sportsmanship. Administration retains the right to remove or prevent students from attending extra-curricular events if they have violated any rules or if the student is not fulfilling their academic and/or behavior obligations.

*All student spectators or attendees must enter the event through designated doors/entrances. Students caught jumping fences, propping doors or allowing others to gain entrance to events through unauthorized entry points will be removed from the event and will be subject to school discipline code. All students must bring their **current** student ID with them to any extra-curricular event.

To be a part of an extra-curricular activity is a privilege, not a right. To be eligible to participate in extracurricular activities, students must have all registration fees/others fines paid in full. **Students/children 8th grade and under must be accompanied and supervised by an adult in order to attend High School extracurricular events.** Students who choose to participate in extracurricular activities are subject to all normal school rules, but in addition they are expected to maintain habits and behaviors that reflect favorably upon them, the school and the community. As representatives of the district they are expected not to use tobacco, intoxicants, stimulants, controlled or illegal substances or be convicted of an offense other than a routine traffic violation.

This Code of Conduct applies to all school sponsored activities that are neither part of academic class nor otherwise carry credit or a grade. Students who choose to participate in these activities are subject to all normal school rules in the student handbook, but in addition they are expected to maintain habits and behaviors that reflect favorably upon themselves, the school and the community.

Members must conduct themselves at all times, including after school and on days school is not in session, as good citizens and exemplars of their school - they must behave in ways that are consistent with good sportsmanship, leadership, and appropriate moral conduct. They are expected to demonstrate good citizenship and exemplary conduct in the classroom, in the community and during all f

The code of conduct below describes the expectations and goals of extra-curricular programs. This Code does not contain a complete list of inappropriate behaviors for students in extra-curricular activities. This Code of Conduct will be enforced 365 days a year, 24 hours a day. Should an extra-curricular participant find him/herself in a situation where illegal activities are taking place, that individual will be considered to be an active participant in those illegal activities if he/she fails to leave the situation as soon as he/she becomes aware of those illegal activities.

To try out for or participate in any school sponsored interscholastic competition, the student athlete must read the random drug testing policy and sign a consent on the "Random Drug and Alcohol Testing Consent". This consent form must also be signed by the student's

parents or guardians in advance of the tryouts or start of the extra-curricular activity. The consent form will be valid for the school year, including the following summer, and must be renewed annually to participate. If the student athlete, his/her parents or guardians refuse to sign the release form, the student will not be permitted to be a member of the team.

A student participating in an activity or athletic program will be subject to disciplinary action if he/she violates this Code of Conduct for Extracurricular Activities. Violations will be treated cumulatively, with disciplinary penalties increasing with subsequent violations. Violations of the Code of Conduct are cumulative per school year.

Sanctions for violations other than drugs and alcohol will be based on the nature of the offense, number of offenses and could result in any of the following actions:

- A.) Dismissal of the Case
- B.) Letter of warning
- C.) Suspension from the extra-curricular activity for:
 - i.) A specific period of time or percentage of events/competitions
 - ii.) The remainder of the season or for the next season.

Sanctions for Possession and Use of Alcohol, Tobacco, Vaping Products or Controlled Substances (to include buy, sell, barter or distribute any legally controlled illegal substance or paraphernalia):

A.) First violation of use or possession: A suspension of 3 weeks. The suspension will start immediately for a student athlete that is currently in season. If the student athlete is not currently in season, the suspension will start for the first event (game/match), of the student's next season.

B.) Second Violation of Use or Possession: A suspension of 1 year (365) from the date of the infraction.

If an extra-curricular participant's conduct is such as to appear to violate this code of behavior, an informal hearing will be held by the Activities Director or Principal. This informal hearing will, if possible, be conducted within 24 hours of the report of the infraction. Any resulting action taken against the extra-curricular participant by the Activities Director or Principal will take place only after that informal hearing is held. Any infraction which occurs during the school year, but when school is not in session, will be dealt with upon the resumption of school.

The procedure for the informal hearing for conduct violation by an extra-curricular participant will be as follows:

- A.) The extra-curricular participant will be informed of the reported violation by his/her coach, advisor, the Activities Director or the Principal.
- B.) The Activities Director or Principal will determine whether the extra-curricular participant has been made aware of the rules and expectations of the extra-curricular code, as evidenced by a signed copy of the Extra-Curricular Code of Conduct.
- C.) The Activities Director or Principal will review the reported violation, consider the severity of the violation, the circumstances involved, the previous conduct of the extra-curricular participant, and the student's own statement of the situation when determining an appropriate action in response to the situation. Whatever action is taken, the extra-curricular participant, his/her parents/guardians and coach/advisor will be notified.

Students which are in violation of the school discipline code, as well as the extra-curricular code, might be subjected to multiple disciplinary actions. A suspension extends to all extra-curricular activities, practices, and contest/events on the day(s) of suspension.

The extra-curricular participant shall be suspended from activities as specified in this code. If no events or contest remain in the activity, he or she will be suspended in the next activity or season that they participate in. In order for a suspension to be fulfilled the participant must complete the season that the suspension is served in. The suspension will start immediately for in-season participants, or the Sunday prior to the first activity of the suspension for out of season participants.

Academic Eligibility- Winnebago High School

In order to participate in extra-curricular activities a student must be passing six (6) subjects at the high school level. Passing work shall be defined as work of such a grade that if on any given date a student would transfer to another school, passing grades for the course would immediately be certified on the student's transcript to the school to which he/she transfers. Academic eligibility will be calculated weekly on Thursday's and will be enforced Sunday to Sunday according to the school's guidelines. Academic Ineligibility Infractions will result in the following sanctions: A.) First Offense: May continue to practice, but will not be allowed to participate in contests/events for one (1) week, Sunday to Sunday. B.) Second Offense: The participant will not be all to participate in practices/contests/events, Sunday to Sunday. C.) Third Offense: A third week of ineligibility shall result in dismissal from the team/activity.

Athletes who fail to pass six (6) subjects at the high school level at the end of the semester will be ineligible during the entire next semester.

For the purpose of this policy: Extra-Curricular activities are defined as any activities that take place outside of class and/or be part of interscholastic competition. Participants of an activity fall under the extra-curricular guidelines if they practice or perform outside of the regular classroom hours. Only concerts and performances that are practiced within the classroom and then performed by the entire group are curricular in nature.

Academic Eligibility – Winnebago Middle School Grades 6-8

In order to participate in extracurricular activities, a student must be passing all classes during the sport season.

Attendance:

Regular and punctual attendance at school and practice is required. Extra-curricular participants who are absent from school on the day of an event/contest may not participate in that event/contest unless they have received prior clearance from the Activities Director or Principal. An extra-curricular participant must be in school within 45 minutes of the designated start time and attend the entire school day in order to participate in practices and/or events/contests. Exceptions will be made only for prearranged and administratively approved appointments which are verified in writing.

Travel:

Extra-curricular participants are expected to travel to and from contests/events and practices with their team/group. At the coaches/advisors discretion, a student may ride home from a finished event with their parent/guardian, provided they “sign out” with that coach/advisor. Only a parent or legal guardian may sign a student out and students will only be allowed to ride with their parent or guardian. Any other transportation arrangements must be approved by the Activities Director or Principal prior to the event/contest.

Equipment/Uniforms:

Extra-curricular participants are responsible for the equipment and uniforms issued to them. Items that are lost or damaged must be replaced by the extra-curricular participants. The participant will be notified of the specific financial responsibility. Students who fail to turn in the school issued equipment/uniform upon the completion of their sport/activity season, will not be issued equipment or a uniform for any subsequent activity/season.

Appeal Procedure:

Should the extra-curricular participant believe that the Activities Director or Principal has misinterpreted the Extra-Curricular Code, or has exceeded his/her authority, he/she may appeal that decision to the Superintendent. The Superintendent will review the reported violation, hear statements from the Athletic Director or Principal, from the extra-curricular participant and from his/her parents. The Superintendent will then determine to either uphold or overturn the original action. If the Superintendent overturns the decision of the Activities Director or Principal, he/she may apply an alternate penalty. The decision of the Superintendent is final.

Extra-Curricular Drug and Alcohol Testing Program:

To further its legitimate concerns with regard to preventing, deterring, and detecting drug use and protecting the safety and health of its students, the Board of Education has adopted the following drug and alcohol testing program, which shall apply to all participants in school sponsored extra-curricular activities in grades 9 through 12.

This procedure was developed by a committee of administrators, school board members, coaches, parents and students. While the school board encourages students to participate in extra-curricular activities, it also believes the opportunity to try out for and participate in those activities is not an absolute right. Rather, it is a privilege offered to all students who are eligible. To try out for or to participate in any school sponsored extra-curricular activity, a student and his/her parent/guardian(s) must consent to random drug and alcohol testing. Failure to sign off on a “Random Drug and Alcohol Testing Consent” form will make a student ineligible to try out or participate in any District extra-curricular activities. This form must be completed online during the appropriate registration time for all extra-curricular participants. Transfer students who wish to participate in extra-curricular activities will be placed in the random testing pool when they sign the consent form at the time of enrollment.

Random Selection of Students:

During the school year, all participants in extra-curricular activities will be subject to the possibility of being randomly tested for controlled substances and alcohol. Once placed on the random list, the participant will remain in the random testing pool for the remainder of the school year. Testing will be conducted at random, unannounced times throughout the school year. In order to maintain confidentiality, the testing agency will assign a number to each student participating in an extra-curricular activity.

Notification of Student Selection and Collection Procedure:

Selected students will be notified to report to the testing site. The student will be escorted to the testing site by the Principal, Assistant Principal, Activities Director or designee. Once there, the students will stay under the guidance of the testing agency’s personnel until the student is able to provide an adequate specimen. If a student is unable to produce a specimen, the students will be given up to 24 ounces of fluid. If the student is unable to produce a specimen within two (2) hours, the student will be ineligible for participation in extra-curricular activities until the next regularly scheduled test is administered. Any sample given that tests non-negative shall be confirmed by the testing agency.

If a participant is absent from school or is off campus and selected for testing, the student will remain eligible for participation, but will be automatically tested on the next date as one of the selected participants.

Non-Compliance:

If an extra-curricular participant refuses to be tested, this will be considered a positive test and the participant will be subject to the violations in the Extra-Curricular Code of Conduct. Any participant that has a test which is determined to have been altered or “masked” in any way will be ineligible for all extra-curricular activities for the remainder of the school year. This will be reported to the parents/guardians.

Medication:

If an extra-curricular participant selected for testing has been or is taking prescription medication, the participant must provide verification, (either by a copy of the prescription or by doctor’s authorization) upon request.

Procedure for a Positive Test Result:

If a student's sample tests non-negative, the student and his/her parents/guardians shall be notified by phone or personal contact of the results by the Principal and/or Activities Director. The student and his/her parents/guardians shall be given the opportunity to provide information explaining the non-negative result or request a second test. These requests must be made within twenty-four (24) hours of the notification of the first positive test results. *A student who tests positive may be tested each time the random drug tests are administered thereafter for the remainder of the school year.*

If a drug or alcohol test is verified "positive", the building Administration will meet with the student and his/her parents/guardians. They will be given the names of counseling and assistance agencies. The student will be found in violation of the Code of Conduct for Extra-Curricular Activities, and given the appropriate suspension.

Re-Testing After a Positive Result:

The student will have an opportunity within twenty-four (24) hours of the notification of the first positive test results to be re-tested in a federally-licensed laboratory of the family's choice and at the expense of the student and parent/guardian. The results of this second test will be shared with the Principal or Activities Director. Should the test be confirmed as positive, the student will be subject to the violations specified in the Extra-Curricular Code of Conduct.

Confidentiality of Results:

The results of any test administered under the terms of the policy shall be kept confidential and disclosed only to the students, his/her parents, and school officials designated by this policy. The test results shall not be used as a basis for any academic or disciplinary action other than the consequences states in the Code of Conduct and Drug and Alcohol Testing Program. The

results of the testing shall not be reported to law enforcement officials. The test results will not be part of the student's permanent record, but will be kept in a separate secure file. The Drug and Alcohol Testing Program does not, however, limit the school district's authority to suspend or expel students under reasonable suspicion of drug or alcohol use, when that reasonable suspicion is based on evidence acquired outside of the Drug and Alcohol Testing Program described herein. Similarly, the Drug and Alcohol Testing program does not limit the School District's authority to search or test students when reasonable suspicion of drug or alcohol use exists.

Expense:

Funding of the Drug and Alcohol program will be provided by the School District for all initial random drug tests. Students and parents/guardians assume financial responsibility for requested re-tests and substance abuse counseling.

Education of Children with Disabilities

It is the intent of the district to ensure that students who are disabled within the definition of Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act Amendment Act, or the Individuals with Disabilities Education Act are identified, evaluated and provided with appropriate educational services.

The School provides a free appropriate public education in the least restrictive environment and necessary related services to all children with disabilities enrolled in the school. Any special education student whose gross disobedience or misconduct is not a manifestation of his or her disability may be expelled pursuant to the expulsion procedures.

Winnebago Physical Education Heart Rate Monitor Based Curriculum

Heart Rate Monitor Information

WHS students will be assessed on the amount of time spent in their target heart rate zone (THRz). Target heart rate zones are expressed as percentages of a person’s maximum heart rate. Target Heart Rate Training Zone (THRz)

The target heart rate training zone for WHS physical education is at least 60% of the student’s maximum heart rate. Maximum heart rate is found by taking 220 – your age. Therefore, the maximum heart rate for high school students usually ranges from 202-206. The target heart rate training zones for high school students begins at 121.2-123.6. Students will work to maintain at least 122 beats per minute.

Equipment/Policy

Students will be assigned a heart rate monitor during their physical education class. Each student is responsible for his/her heart rate monitor during that class period. If equipment is damaged due to student negligence, they will be financially responsible for replacing the equipment. The heart rate monitors and equipment will be sanitized after each use. Locks for PE lockers are issued by the school. Personal locks are not allowed and will be removed by building administration or maintenance. Personal locks that are removed will not be replaced by the school and students will not be compensated.

Assessment

Physical Education students will be graded on the following:

Minutes spent in THRz & Student Conduct* 80% of total grade

Final Exam 20% of total grade

***Minutes may be affected by student conduct during class**

Minutes in Target Heart Rate Zone (THRz) (80% of Total Grade)

Students will be expected to be in their THRz (122 bpm or more) for at least 20 minutes per regular class period.

Student’s grade for this portion of the class will be determined by the following formula: Total # of minutes in THRz/Total # possible minutes = % Grade

- A – (90-100%)
- B – (80-89%)
- C – (70-79%)
- D – (60-69%)

F – (59% and below)

Final Exam (20% of Total Grade)

Student's grade for this portion of the class will be determined by the following

formula: **Mile Score(100) + Pacer Score(100) + Written Exam(100) / 300 = % grade**

** Students will be allowed to earn more than 100% in the THRz portion of their grade. This will help offset any low final exam grades.

Winnebago High School Science Department Dress Code and Expectations

The Winnebago High School Science Department requires special dress code considerations during laboratory procedures. The dress code and safety policies are guided by the Occupational Safety and Health Association (OSHA) and Flinn Scientific School Lab Safety.

At the beginning of each school year, students and guardians are required to read and sign a safety contract (http://www.flinnsci.com/media/396468/safety_contract_hs.pdf) stating that for their safety and the safety of others, they have read and will abide by the safety requirements of WHS Science Labs. Students not complying with safety dress will not be allowed to participate. Dress code safety requirements during laboratory days are:

- *No open-toed shoes (No sandals, flip-flops, etc); long hair must be tied back, no food/drinks, no purses or bags, long pants are required
- *Students wearing contact lenses may be required to remove them or wear additional protective eye wear.

AI Programs

Winnebago School District requires students to be academically honest and act with academic integrity. School work generated by using Artificial Intelligence or AI programs will not be considered original work by the student and will be classified and treated the same as plagiarism.

Winnebago High School Study Hall Expectations

The Study Hall teacher will be in charge of the room; they will inform everyone of the expectations and be responsible for follow through. The Study Hall teacher may adjust expectations as needed in order to maintain the disruption and distraction free working environment.

Follow all school policies:

- Be respectful of everyone in the classroom; no one may be a disruption or distraction to learning
- Bring all work and materials you may need with you when you come to class
- Students must be in the classroom and seated when the bell rings
- Sleeping is not allowed
- Study hall is for completing work and/or studying; if you have all of your work already completed, plan to read, study, or sit silently
- No backpacks; the school dress code must be followed
- Use of the library is a privilege; passes must be signed by the librarian first, then by the study hall staff; students may not leave for the library until after the first 10 minutes of class; students must sign in at the library and remain in the library for the duration of the period;
- Students on the D/F list will be required to stay in study hall
- Water/snacks may be allowed, but they may not become a distraction/disruption, and students are responsible for your own mess
- Cell phones/other electronic devices are not allowed; teachers may grant permission and/or designate times for students to use electronic devices when appropriate

Plagiarism/Academic Dishonesty

Plagiarism is a serious issue, especially in an academic environment. In order for teachers/staff to provide the best possible assessment and instruction to meet student needs, it is imperative that student work be their own, original work and not be plagiarized. Plagiarism reflects on character; therefore, students should diligently avoid all forms of plagiarism. Any of the following features found in students' written work (including drafts, journals, revised papers and other assignments) will constitute the evidence of plagiarism/academic dishonesty:

- "Cutting and pasting" printed or electronic texts (from the Internet or elsewhere) into student work, and presenting it without quotation marks or proper citation.
- "Cutting and pasting" printed or electronic text into student work, changing a few words, and presenting it without quotation marks or proper citation.
- Retyping material from a printed or electronic source into student work and/or changing a few words and then presenting as original work.
- Consulting an Internet or print source to "get ideas" that students then incorporate into a paper, without proper attribution.
- Summarizing another person's ideas without citing the source.
- Submitting a paper written by or partially written by someone else, and claiming to be the original author.
- Submitting a paper previously written in another course.
- Putting another person's ideas "in my own words," without documenting the source.
- Copying from a classmate

The penalties for plagiarism/academic dishonesty include loss of all credit for the test, assignment, or paper with no opportunity to revise or resubmit work. Being a form of cheating, plagiarism also may result in disciplinary action from school administration.

School Operations During a Pandemic or Other Health Emergency

A pandemic is a global outbreak of disease. Pandemics happen when a new virus emerges to infect individuals and, because there is little to no pre-existing immunity against the new virus, it spreads sustainably. Your child's school and district play an essential role, along with the local health department and emergency management agencies, in protecting the public's health and safety during a pandemic or other health emergency.

During a pandemic or other health emergency, you will be notified in a timely manner of all changes to the school environment and schedule that impact your child. Please be assured that even if school is not physically in session, it is the goal of the school and district to provide your child with the best educational opportunities possible.

Additionally, please note the following:

1. All decisions regarding changes to the school environment and schedule, including a possible interruption of in-person learning, will be made by the superintendent in consultation with and, if necessary, at the direction of the Governor, Illinois Department of Public Health, local health department, emergency management agencies, and/or Regional Office of Education.
2. Available learning opportunities may include remote and/or blended learning. Blended learning may require your child to attend school on a modified schedule.
3. Students will be expected to participate in blended and remote instruction as required by the school and district. Parents are responsible for assuring the participation of their child. Students who do not participate in blended or remote learning will be considered truant.
4. All school disciplinary rules remain in effect during the interruption of in-person learning. Students are subject to discipline for disrupting the remote learning environment to the same extent that discipline would be imposed for disruption of the traditional classroom.
5. Students and parents will be required to observe all public health and safety measures implemented by the school and district in conjunction with state and local requirements.
6. During a pandemic or other health emergency, the school and district will ensure that educational opportunities are available to all students.
7. School personnel will work closely with students with disabilities and other vulnerable student populations to minimize the impact of any educational disruption.
8. Students who have a compromised immune system, live with an individual with a compromised immune system, or have a medical condition that may impact their ability to attend school during a pandemic or other public health emergency should contact school officials.
9. During a pandemic or other health emergency, teachers and school staff will receive additional training on health and safety measures.
10. In accordance with school district or state mandates, the school may need to conduct a daily health assessment of your child. Parents and students will be notified of the exact assessment procedures if this becomes necessary.
11. Parents should not send their child to school if their child exhibits any symptoms consistent with the pandemic or other health emergency.
12. Please do not hesitate to contact school or district officials if you have any concerns regarding your child's education, health or safety.
13. Parents and students must understand that school all posted handbook policies and school operations during a pandemic or other health related emergency may require adjustment(s) in order to adhere to the conditions/requirements. Winnebago School District will give notice of all changes in a timely manner. It is up to the Parent/student to contact building administration if they have questions regarding changes in school policies and procedures during these types of circumstances.
